Coffee of the Month

Our special blend this month is Jamaica Blue Mountain Coffee grown in the specially designated area of the Blue Mountains. The coffee has blue green color, good acidity, intense aroma, fairly good body, clean.

When you close your eyes and sip on a hot mug of 100% Jamaica Blue Mountain Coffee steeped with a chocolate dipped spoon you can almost see that Caribbean Sunset

Buy it by the Bag

Whether you want the bean or the grind JavaBean Cafe has both.
